This is a user manual for an example project.

## Introduction

This project does something. We just haven't decided what that is yet.

## Source Code

*Java code from project*

```
public boolean contains(String haystack, String needle) {  
    return haystack.contains(needle);  
}
```

This page was built by the following command:

```
$ ./gradlew asciidoctor
```

# Includes

`include::subdir/_b.adoc[]`

content from `src/docs/asciidoc/subdir/_b.adoc`.

`include::_c.adoc[]`

content from `src/docs/asciidoc/subdir/c.adoc`.

Includes can be tricky!
